

Eye & Face Protection

ISEA is the trade association for manufacturers of eye and face protection equipment.

ISEA members have a seat at the table when standards are being written that affect their products; they get a first look at changes in standards, they influence the development of new standards, and they are kept informed of developments on standards around the world. ISEA is the secretariat for the ANSI Z87 committee and publisher of the ANSI/ISEA Z87.1 standard, and is represented on other national and international standards committees and panels. The group is working on a new standard for bio-protective eyewear.

ISEA gives members a full-time Washington office. They are kept up to date on important developments affecting their companies, and are identified with a respected and responsible organization that is an advocate for eye and face protection standards and regulations.

ISEA members use the association to learn from each other, and work together to improve markets. Information services are tuned to member companies' needs. ISEA members participate in a market data program that tracks quarterly sales of spectacles, goggles, faceshields and welding helmets. This data is available exclusively to participating companies. The group also publishes a *Use and Selection Guide* for eye and face protection equipment.

In addition to bringing companies together in the Eye and Face Protection Group, ISEA membership is a link to the larger world of safety equipment, both in the US and around the world. Companies receive regular bulletins and reports on standards, government policies and proposals, and market intelligence. They participate in the association's Annual and Fall Meetings, where the industry comes together to share information and insight. Members' products are listed in a *Buyers Guide*, published in print and in a searchable on-line database.

For 75 years, ISEA has set the standard for personal safety equipment manufacturers, supporting and promoting the business interests of its member companies, united in the goal of protecting the health and safety of people worldwide.

ISEA Eye & Face Protection Group Member Companies

Aearo Technologies
Bullard
Encon Safety Products
ERB Industries, Inc.
Gateway Safety, Inc.
H.L. Bouton Company
Jackson Safety
3M Company
MCR Safety
MSA
