

Emergency Eyewash & Shower

ISEA is the trade association for manufacturers of emergency eyewash and shower equipment and systems.

ISEA members have a seat at the table when standards are being written that affect their products; they get a first look at changes in standards, they influence the development of new standards, and they are kept informed of developments on standards around the world. The ISEA standard for eyewash and showers, ANSI/ISEA Z358.1, is recognized around the world, and the group has liaison representation on the European standards committee for laboratory eyewashes. In response to homeland security needs, the group is developing a new ANSI standard for decontamination showers.

ISEA gives members a full-time Washington office. They are kept up to date on important developments affecting their companies, and are identified with a respected and responsible organization that is an advocate for standards and regulations for emergency eyewash and shower equipment. ISEA promotes recognition of the ANSI standard as the basis for regulation of emergency eyewash and shower equipment in the workplace, and is an active participant in US government homeland security organizations developing standards and plans for personnel and equipment decontamination.

ISEA members use the association to learn from each other, and work together to improve markets. Information services are tuned to member companies' needs.

In addition to bringing companies together in the Eyewash and Shower Group, ISEA membership is a link to the larger world of safety equipment, both in the US and around the world. Companies receive regular bulletins and reports on standards, government policies and proposals, and market intelligence. They participate in the association's Annual and Fall Meetings, where the industry comes together to share information and insight. Members' products are listed in a *Buyers Guide*, published in print and in a searchable on-line database.

For 75 years, ISEA has set the standard for personal safety equipment manufacturers, supporting and promoting the business interests of its member companies, united in the goal of protecting the health and safety of people worldwide.

ISEA Emergency Eyewash and Shower Group Member Companies

Acorn Safety
Bradley Fixtures Corporation
Encon Safety Products
FSI North America
H.L. Bouton Company
Haws Corporation
Prevor, Inc.
Sellstrom Manufacturing Company
Sperian Protection (Fendall)
Speakman Safety Products
Therm-Omega-Tech, Inc.

Emergency Eyewash and Shower Standards

American National Standards from ISEA:

ANSI/ISEA Z358.1-2004 - *Emergency Eyewash and Shower Equipment*
(published in English and Spanish editions)

ANSI/ISEA 113-2008 - *Fixed and Portable Decontamination Shower Units*

ISEA is represented on the following standards committees and panels:

ANSI Z535 - Safety Signs and Colors

ANSI Z10 - Occupational Health and Safety Systems

ASTM E54 - Committee on Homeland Security Applications

ANSI Homeland Security Standards Panel

CEN TC322 /WG2 - Fittings and Fixtures (European Committee for Standardization)

For more information on the advantages of ISEA membership to your company, contact ISEA at 703-525-1695, or go to our Web site at www.safetysystem.org.
